WORK EXPERIENCE

Frontend Developer

Developed and maintained web applications using React.js, improving user experience by 30%.

Collaborated with backend developers to integrate APIs and enhance application functionality.

Backend Developer

Built and maintained server-side logic using Node.js and Express.js.

Designed and managed MongoDB databases, optimizing data storage and retrieval processes. Developed RESTful APIs to support front-end functionalities.

Full Stack Developer

Worked on both front-end and back-end aspects of web applications.

Utilized the MERN stack to create robust and scalable applications.

Led a team of junior developers, providing mentorship and guidance.
